At Lombard Insurance, we believe in investing in long-term relationships. We value relationships built on mutual respect. By turning probabilities into possibilities and opportunities into action we maintain true partnerships for lasting success.

What makes us different

Lombard looks intimately into each situation, analyzing it on its own merits, focusing on the details, the potential and the opportunity. Businesses need working capital to facilitate the efficient execution of their business. No two businesses are the same. We understand this and focus on creating an offering that enhances relationships for all parties.

With a division that specialises in understanding the needs of the Clearing and Freight industry, Lombard has ensured we match these needs through our guarantee product offerings. We recognise there is a greater need than just issuing guarantees.
