Who we are

Leppard Underwriting is exclusively an underwriting management company. We at Leppard Underwriting, since our inception back in 1991, specialise in protecting and looking after the reputation and interests of our Intermediaries, Clients and our staff.

We are forward thinking and solution-driven professionals who know never to compromise on quality. We work hard and play hard; but most importantly, work together and learn from each other, from the past, future and competitors too.

Our efficiency is reflected through our bravery to constructively challenge the status quo, our open mindedness and ability to embrace and facilitate change. The quality of underwriting and professionalism has resulted in a deep rooted trust of the skill and performance of Leppard Underwriting.
Our products

The current focus of the underwriting business is split into two distinct divisions and is dedicated exclusively to the broker channel:

Professional Indemnity (for example)
- Accountants and Auditors
- Attorneys
- Built environment professionals:
  - Architects
  - Consulting Engineers
  - Design and Construction
  - Land Surveyors
  - Quantity Surveyors
  - Project Managers
- Other built environment professionals
  - Estate Agents
  - Freight Forwarders
  - Computer Industry
  - Insurance Brokers
  - Underwriting Managers
  - Miscellaneous PI (excluding Medical Malpractice)

Liability Insurance (for example)
- Broadform Liability
- Commercial Liability Top-Up (XOL and Umbrella)
- Contractors’ Liability
- Events Liability
- Excess Layers and Umbrella covers
- General Public Liability
- Motor Fleet Third Party Liability
- Passenger XOL Liability
- Personal Liability Top-Up (XOL and Umbrella)
- Products Liability
- Warehousemen’s and Carriers’ Liability

Product development has seen the complete overhaul of our core professional indemnity and liability policy wordings. These are the first new generation plain language professional indemnity and liability wordings offered to the South African insurance market.
